

Spilled_Paint_Water

Description

Oops! I accidentally spilled paint all over my canvas. Now, the colors have blended too well :(Can you restore my lost artwork?

Category

Solution

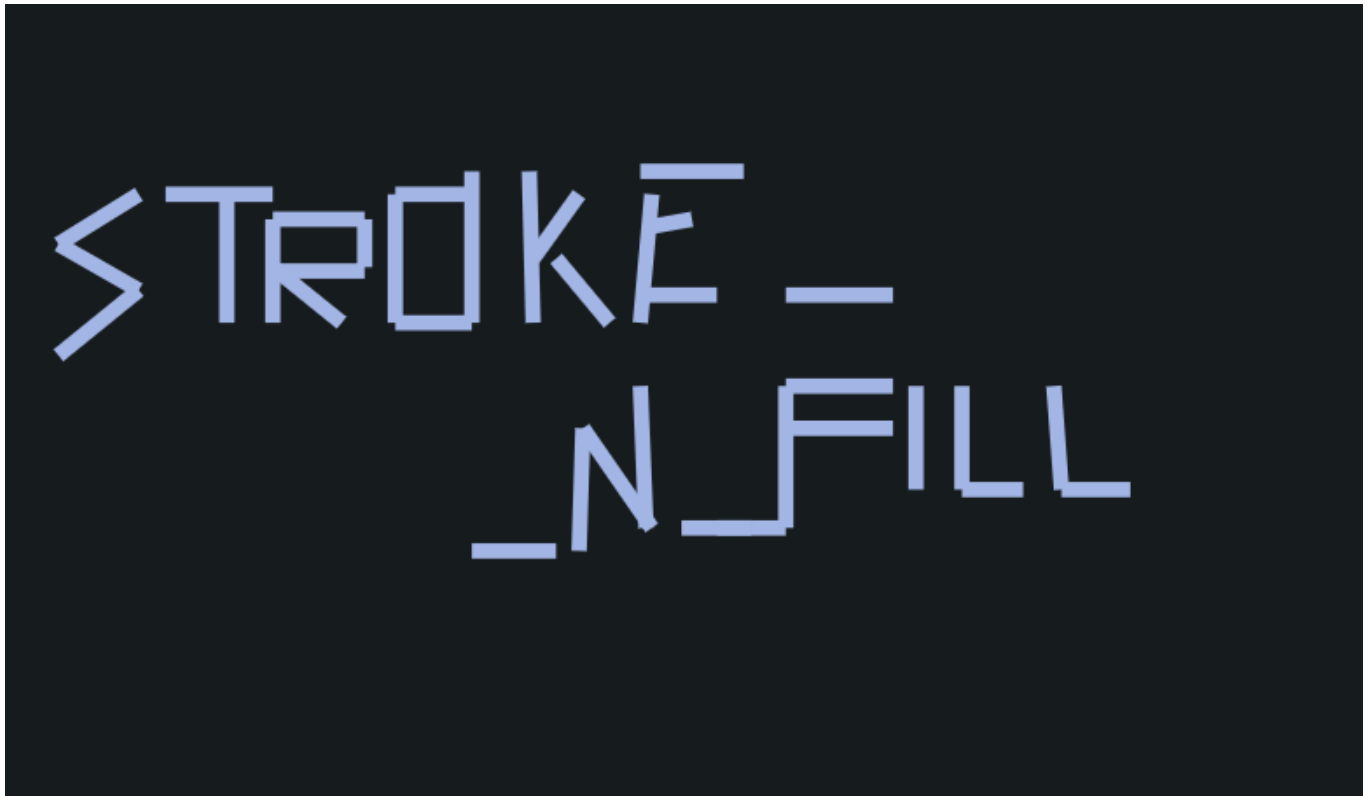

The given file is an svg with only sky blue color

From an SVG editor, we can see that there's a blocking square and the background-color with the line color, `#a2b5e0` and `#a2b5e4` are almost the same.

If we remove the square and change the background color. A text reveals

The flag would be `VishwaCTF{STROKE__N_FILL}`
