Solution

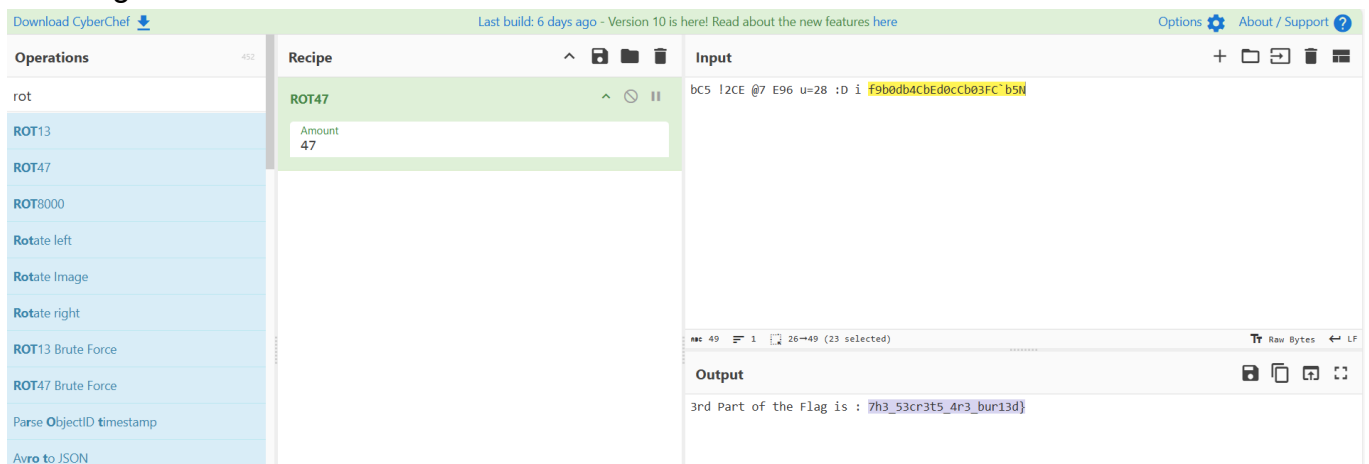

The site looks simple, from what the text suggests, the solution should be very straightforward.

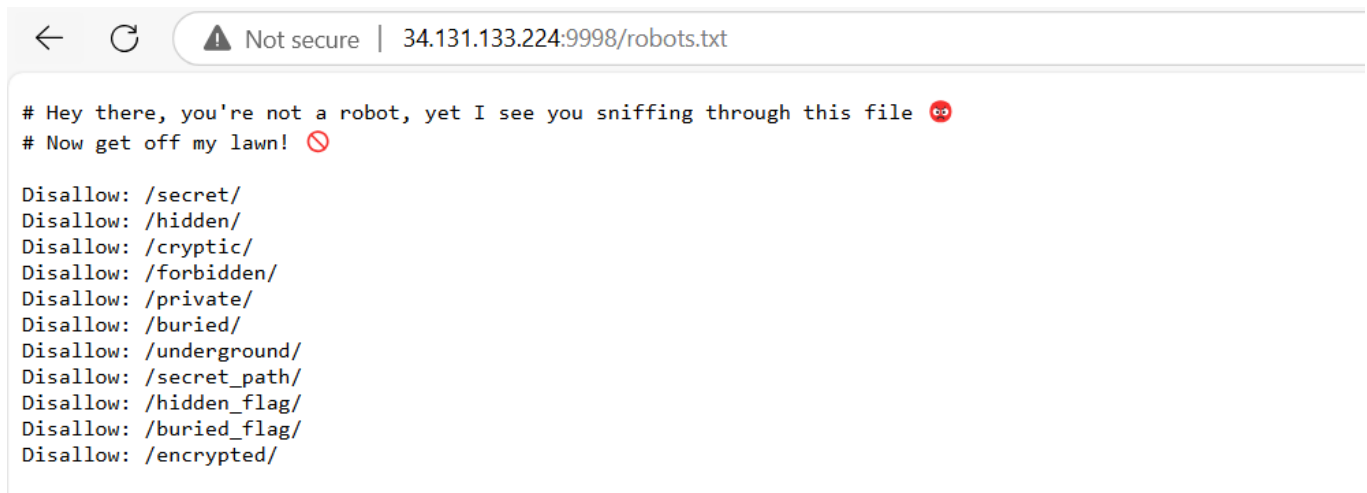

Website seems to have nothing except for the css

```
#flag {  
  display: none;  
  content: "bc5 !2CE @7 E96 u=28 :D i f9b0db4CbEd0cCb03FC`b5N";  
}
```

I try some of the popular decode methods and it gives me a part of the flag. This is the 3rd part, meaning the other two is somewhere.

robots also has a bunch of sites

Visiting /buried leads to a hex string.

This hex string decodes into the first part.

Convert

/secret_path gives us a morse code

Returning the final, 2nd part.

Input:

[illegible]

This is not valid Morse code, but it can be played anyway.

Output:

2NDPARTOFTHEFLAGIS:15#345Y#WH3N#Y0U#KN0W#WH3R3#
